## ABOUT US

Our Tagish ancestors occupied the area as semi-nomadic peoples creating hunting and fishing camps in the territory while our Tlingit ancestors came inland from Coastal Alaska to Carcross for trading, celebrations, and marriage. Historically, the Tlingit traded goods included euchalon fish oil, cedar boxes, and dried clams in exchange for copper, furs, lichen dyes, and goat hair from the Tagish.

Hunting and gathering continue to be important in Carcross Tagish culture, with Elders passing on stories and traditional knowledge of medicinal plants, assisting in the operation of our local farm, and helping the integration of harvest camps into daily life.

Our ancestors have left a positive and long lasting legacy for our youth today. Including in 1889, when Skookum Jim, a member of the Dak'laweidi clan, discovered gold at Bonanza Creek triggering the Klondike Gold Rush, forever changing the Yukon.

Come share in our culture, you are a part of our story now.
